**Construction Update: National Grid Gas Main
Replacement on Adams and Clark Street
Beginning Tuesday, July 9, 2013
Includes #4 to #16 Adams St & #2 to #29 Clark St**

UPDATED 7/1/13: National Grid Gas will begin gas main replacement work on Adams/Clark Street starting with saw cutting on Tuesday, July 9, 2013 and continuing with excavations and gas main upgrades until approximately August 31, 2013. Temporary Closures of Adams and Clark Street to through traffic will be allowed for safety and to expedite the work. Abutter access will be maintained at all times. Through traffic must seek alternate routes while this work is ongoing.

This is a NGrid Gas project. The Town will not oversee or direct the work. We can only establish basic work parameters per the needs and conditions for construction and repair of the road and include those in the permit we issue NGrid Gas. If you have a particular concern, please bring it to the attention of NGrid Gas. You can copy or notify this office at the same time if needed. The following are some of the requirements the Town has directed NGrid Gas to include in the project regarding traffic and access.

- Abutter access will be maintained at all times.
- Temporary Closures of Adams/Clark Street to through traffic will be allowed for safety and to expedite the work. Please seek and plan for alternative routes.
- Work hours shall be 7 AM – 4 PM, Monday – Friday, excluding holidays.
- National Grid Gas contractors are responsible for all work, police details, traffic management and coordination.

We apologize for the short notice and will do our best to have NGrid Gas alleviate any concerns you may have.

If you wish to be on our project status email update list please send an email requesting to be placed on the Spencer Construction updates list to styler@spencerma.gov. Please include "Spencer Construction Updates" in your email subject line.

If you have issues, questions or concerns about National Grid's work or any related matter, please contact National Grid Gas directly. For homes and businesses using gas for heating or cooking see attached (5/8/13) letter from NGrid for further information.

Dear Resident/Business Owner:

This is an important notice informing you **National Grid** will be performing replacement work of our gas mains and gas services in your neighborhood on **Adams/Clark St., Spencer, MA**. Our work has a tentative start time during the week of **July 9, 2013 with an approximate end date of August 31, 2013**. Additionally, general posting in the area will provide the specific dates following our permitting process. The work will occur between the normal working hours of **7:00 a.m. – 4:00 p.m., Monday to Friday**. **National Grid customers will have a scheduled time period for the transfer of services to the new main, where there will be a short interruption of gas service. For this process to be completed, our technicians will need access to the existing gas service and meter.** We apologize in advance for any inconvenience, but this project is part of our commitment to provide continuous improvements and keep the natural gas delivery system safe and reliable.

- National Grid and/or a qualified contractor will perform the work. A police detail is provided, if necessary. The road will be open to the public and parking may be limited. A construction foreman with appropriate identification will be on site to address your parking needs throughout the duration of the construction.
- Meters will need to be relocated to the outside of the home or business.
- There may be a lag between temporary and permanent restoration of the street and sidewalk, depending on weather and ground conditions.

If you have any questions about the project, National Grid **Customer Service** can be reached 24/7 at **1-800-233-5325**.

Not a National Grid natural gas customer?

If you do not have a gas service to your home or are not currently using natural gas for heating, this is the easiest time to make the switch to clean, reliable natural gas. Please be aware that if your street is repaved it will be some years before National Grid has permission to reopen the street and/or sidewalk.

For more details about our many conversion incentives please call

1-877-696-4743 or visit our website www.powerofaction.com/conversion/

Sincerely,

National Grid
